EXAMINER INITIAL	
HG	Exhibit A (2001) includes four pictures of a prior art vehicle bumper system on a Ford Focus model vehicle, which includes a steel beam and an energy absorber that wraps around ends of the beam. The energy absorber includes a lower-density black foam body and has several higher-density white foam blocks inset into an inner surface of the black foam. (Note: Photo 1 shows an "extra" energy absorber loosely setting on a rear bumper system of a Ford Focus, the "extra" energy absorber being reversed to show its inner surface with the white foam blocks exposed.)
